3.1 List Files Flight programs

In this section, the legal representative can view the flight program files they have requested, as well as those that are in draft status (not yet submitted) to continue working on them:

The screenshot displays the 'Sede Electrónica' interface for the Air Traffic Management System (AESA). The top navigation bar includes 'My Requests', 'Accreditation', 'Flight program', 'Aircraft', and 'User guide'. A filter section is highlighted with a red box, containing fields for 'File code', 'File Type', 'Status', 'Opening Date (From)', and 'Opening Date (To)'. Below the filters is a 'Search' button. A note states: 'Files that are in draft status (not finalized) will be automatically deleted after a period of 3 months.' A table below shows flight program requests with columns for File Code, File Type, Status, Opening Date, Date Approved/Denied, and Actions. The table contains one record: PTA-APV-1XZ-S26-1, Scheduled Program, High, 10/04/2026. A red box highlights the table and the 'Search' button. A red arrow points from the 'Filter options to find a flight program' text to the filter section. Another red arrow points from the 'Flight program requests...' text to the table.
